**in order for**  
**signatures**  
**to be valid.**

## **INSTRUCTIONS FOR CIRCULATORS**

Thank you very much for circulating a referendum petition to place before the voters of Hamilton County the question of whether or not to approve the Sales Tax Increase. Because your time and energy are valuable, we are providing these instructions to guide you error-free through the petition process. It is very important that you read and follow these instructions.

Petitions are available on the Internet at [www.WeDemandaVote.Com](http://www.WeDemandaVote.Com).

### **Step 1: Circulating the Petition**

Take your petition to friends, family, and business associates. **Ask them to sign the petition only if they have not previously signed it. No person is permitted to sign the petition more than once.** Please be sure to follow these simple guidelines so all your work can be counted:

1. Before each person signs, ask if he is registered to vote in Hamilton County. If he is not registered, have him fill out a Voter Registration Application first and then you may allow him to sign the petition. The Voter Registration Application must be returned with that part-petition.
2. Signatures **must be in ink**, and should be the same as the signature appears on the signer's signature card at the Hamilton County Board of Elections.
3. **Do NOT sign the petition on which you are listed as the circulator.** Please have another circulator witness your signature on his/her petition.
4. The signer's address must be the same address **at which the signer is registered** with the board of elections. P.O. boxes are not permitted.
5. **Do not allow any person to sign for another** (e.g. husband for wife, or vice versa). There are no exceptions to this rule.
6. Since the circulator must witness each signature and then sign the *Statement of Circulator* stating he witnessed each one, he cannot let anyone else circulate that part-petition.
7. A signer may remove his name by drawing a line through it. The circulator may also strike any name (prior to filling out the *Statement of Circulator*). **No other person should make changes to the petition.**
8. **VERY IMPORTANT: If you have printed a Referendum Petition from the Internet it must be printed on a COLOR printer so that the text at the top of each page is printed in RED INK. If the text is not in RED INK, all of the signatures on the page will be considered invalid.**

### **Step 2: Completing the Statement of Circulator**

1. Carefully count the total number of signatures you have collected on the petition and fill in the number on the "*STATEMENT OF CIRCULATOR*" section on the back page of your petition. An inaccurate count could invalidate your entire petition. Even if you have struck a signature from the petition, you should include it in the total since you did personally witness it. When the Board of Elections does their final count, it will not include the strikeouts.
2. Only the Circulator should complete the Circulator Statement.

**Step 3: Returning Your Part- or Fully-Completed Petition by the DEADLINES BELOW**

Follow these simple guidelines for returning your petition(s):

1. Return ALL petitions with signatures. Even if you have only one signature, that signature can make a difference.
2. Review the Petition Return Checklist below and then return your completed petition(s) to the address below. There is limited time, so even if you don't fill up an entire petition, send what you have by the deadline to support the effort.

**MAIL: postmarked by June 26, 2007**  
 NAACP -- Cincinnati Branch  
 4439 Reading Road  
 Cincinnati, Ohio 45229

**HAND DELIVERY: by June 28, 2007**  
 NAACP -- Cincinnati Branch  
 4439 Reading Road  
 Cincinnati, Ohio 45229
